At CLOUDSUFI, we believe in the power of grit and the pursuit of ikigai. We're not just looking for employees; we're seeking passionate individuals ready to embark on a journey of growth, innovation, and meaningful impact.

Embrace Your Grit

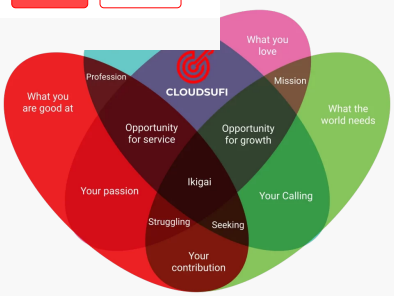
As Angela Duckworth, renowned psychologist and author, eloquently states:

> "In all those very different contexts, one characteristic emerged as a significant predictor of success. And it wasn't social intelligence. It wasn't good looks, physical health, and it wasn't IQ.
>
> It was grit.
>
> Grit is passion and perseverance for very long-term goals.
>
> Grit is having stamina.
>
> Grit is sticking with your future, day in, day out, not just for the week, not just for the month, but for years, and working really hard to make that future a reality.
>
> Grit is living life like it's a marathon, not a sprint."

At CLOUDSUFI, we embody this philosophy. We value determination, resilience, and the unwavering commitment to excellence. Our team members are not just skilled professionals; they are individuals who possess the grit to push boundaries, overcome challenges, and drive innovation in the ever-evolving world of data and AI.

Beyond grit, we foster an environment where you can find your ikigai – your reason for being. We believe that when passion, mission, vocation, and profession intersect, true fulfillment and success follow. At CLOUDSUFI, you'll have the opportunity to:

- Align your skills with your passions
- Contribute to meaningful projects that impact the world
- Grow both professionally and personally
- Be part of a community that values your unique strengths and perspectives



Join Our Mission

As a member of the CLOUDSUFI team, you'll be at the forefront of technological advancement, working on cutting-edge projects that challenge the status quo. You'll collaborate with industry experts, push the boundaries of what's possible in data and AI, and make a tangible difference in how businesses operate.

We're not just offering a job; we're inviting you to be part of a movement. A movement that combines the power of grit with the fulfillment of ikigai to create transformative solutions for our clients and society at large.

Are you ready to bring your grit, discover your ikigai, and shape the future of technology with CLOUDSUFI? Explore our

Opportunities

The Foundation

The CLOUDSUFI Foundation embraces the power of legacy and wisdom of those who laid the foundation for all of us–our seniors.

The purpose of our foundation is to welcome seniors, many in their 70, 80 and 90s, who are healthy in mind, body and soul.

This platform brings them back to work using technology. They are an integral and active part of our extended team, engaged in delivering our suite of products and services. Their wisdom and experience, coupled with new technologies, are epic.

Growing older does not mean that one's mental abilities will be reduced. One of the persistent myths about the aging brain is that it struggles to learn new things, but science does not back that up. Helping seniors to stay engaged with new technologies and the next-gen workforce, and continue to make positive contributions, is invaluable.

The CLOUDSUFI Foundation provides training to seniors in product management, design and engineering so they can have more fulfilling and enjoyable lives and contribute to the global economy.

By learning and sharing their expertise and wisdom, seniors help our company fulfill our mission. Together we make enterprise data dance!
